van der Velde, M. 581

**Accommodation,**  
lens epithelium, actin filaments, polygonal arrays, stress fibres, sequestered actin bundles 569

**Adrenergic pharmacology,**  
adenylate cyclase, cyclic AMP, calcium, forskolin, corneal epithelium, bovine 85  
dopamine receptors, rat, rabbit 75  
peripheral alpha<sub>2</sub> adrenoceptors, receptors, intracameral injection, intraocular pressure, pupil diameter, rabbits 547  
vasoactive intestinal polypeptide (VIP), ciliary processes, adenylate cyclase, cyclic AMP, intraocular pressure, ocular pharmacology, rabbit 47

**Ageing,**  
lens weight, dogfish 707

**AIDS,**  
cytomegalovirus, retinal pigment epithelium, human 835  
HV-1, HHV-6, CMV, PCR, retina, retinitis, herpes simplex virus, human 379

**Aldehyde oxidase,**  
drug metabolizing enzyme, nicotinamide *N*-oxide, ciliary body, bovine 721

**Aldose reductase,**  
aldose reductase inhibitor, cataract, diabetic cataract, cataract prevention, lens, sorbinil, Octodon degus 233  
cataract, diabetes, insulin, iris, sorbinil, streptozotocin, rat 357  
DNA, lens, cataract 1021  
lens, cataract, rat 997  
mRNA, cataract, lens, dot hybridization, rat 1299

**Amacrine cell,**  
retina, Golgi method, chick 159

**Angiogenesis,**  
endothelial cells, retina, proliferative retinopathy, bovine 871

**Angiotensin,**  
angiotensin II receptors, iris and ciliary body, ciliary process, retina, choroid, rabbit 841

**Anterior chamber,**  
 trabecular meshwork, ocular development, ultrastructure, congenital glaucoma, fetus, human 727

**Antibiotics,**  
drug delivery, cornea, *Pseudomonas* keratitis, rabbit 1163

**Antigens,**  
Behcet's disease + uveitis, guinea-pig 957  
cell surface antigens, HLA-ABC, HLA-DR, retinal pigment epithelium, dedifferentiation, cell culture, human 435

**Antivirals,**  
trifluorothymidine, drug penetration, cornea, rabbit 971

**Aqueous humour,**  
blood aqueous barrier, uveitis, cholesterol, lipoproteins, rabbit 441  
carbonic anhydrase, ciliary processes, membrane transport and permeability, tissue culture, bovine 1111  
glaucoma, filtration surgery, trabeculectomy, fibroblast migration/contraction, taxol, cytochalasin B, colchicine 203  
vitreous humour, lens, crystallins, selenite cataract, rat 479

**Aqueous humour dynamics,**  
aqueous outflow resistance, aqueous veins, trabeculotomy, perfusion pressure, Schlemm's canal, human 1233  
glaucoma, tonography, rabbit 963

**Aqueous humour secretion,**  
membrane transport, ciliary epithelium, Na<sup>+</sup>-uptake, Na<sup>+</sup>/HCO<sub>3</sub><sup>-</sup>-symport, tissue culture, bovine 595

**Axonal transport,**  
optic nerve, optic neuritis, demyelinating disease, experimental allergic encephalomyelitis, guinea pig 261

**Behcet's disease,**  
uveitis, antigens, guinea-pig 957

**Blood flow,**  
oxygen, polarographic pO<sub>2</sub>-measurements, iris, anterior eye chamber, anterior iris surface, iridectomy, rabbit, cynomolgus monkey 649

**Blood vessels,**  
blood-retinal barrier, retina, lectin binding, diabetes, rat 271

retina, retinal capillaries, endothelial cells, diabetes, islet transplantation, autoradiography, mouse 681  
retinal artery, retina, elastin,  $\alpha$ -elastin antibody, immunocytochemistry, electron microscopy, monkey 55

**Blood-aqueous barrier,**  
aqueous humour, uveitis, cholesterol, lipoproteins, rabbit 441  
intraocular pressure, cyclic-AMP, prostaglandins, prostaglandin esters, paracentesis, inflammation, prostaglandins, rabbit 1105

**Blood-retinal barrier,**  
retina, blood vessels, lectin binding, diabetes, rat 271

**Bruch's membrane,**  
collagen/fibronectin, rat 1171  
retinal degeneration, retinal pigment epithelium, rats 907

**Calcium,**  
aqueous humour osmolality, sugar cataract, alloxan diabetes, lens, rabbit 517  
cyclic-AMP, protein secretion, protein kinase, signal transduction, inositol phospholipids, tears, lacrimal system 619  
forskolin, cyclic AMP, adenylate cyclase,  $\alpha$ -renergic pharmacology, corneal epithelium, bovine 85  
membrane transport and permeability, lens, Ca<sup>2+</sup>-ATPase, Na<sup>+</sup>, K<sup>+</sup>-ATPase, human 1049

**Carbonic anhydrase,**  
aqueous humour, ciliary processes, membrane transport and permeability, tissue culture, bovine 1111

**Catalase,**  
superoxide dismutase, oxidative damage, optic neuritis, guinea pig 467

**Cataract,**  
aldose reductase DNA, cataract 1021  
cataract classification, nuclear cataract, lens, visual perception, quantitative scales, multidimensional scaling, human 1  
diabetes, insulin, aldose reductase, iris, sorbinil, streptozotocin, rat 357  
diabetic cataract, cataract prevention, lens, aldose reductase inhibitor, sorbinil, Octodon degus 233  
lens epithelium, selenium, DNA, cell cycle, S phase, rat 429  
lens Na<sup>+</sup>, K<sup>+</sup>-ATPase/aldose reductase, rat 997  
lens proteins, glutathione/oxidative damage 883  
lens, aldose reductase, mRNA, dot hybridization, rat 1299  
lens, lens proteins, diabetes, glucose, spectroscopy, human 821  
streptozotocin cataract, lens, diabetes, major intrinsic polypeptide, rat 589  
sugar cataract, alloxan diabetes, calcium, aqueous humour osmolality, lens, rabbit 517  
sugar cataract, lens, galactose, glutathione, protein glycation, sex, pig 449

**Cell membrane,**  
lens lipids, oxidative damage, human 939

**Chlorpromazine,**  
intraocular pressure, blood pressure, intramuscular/intracerebroventricular/intravitreal injection, prolactin, rabbit 1315

**Cholesterol,**  
lipoproteins, aqueous humour, blood aqueous barrier, uveitis, rabbit 441

**Choroid,**  
retina, iris and ciliary body, ciliary process, angiotensin II receptors, rabbit 841

**Ciliary body,**  
aldehyde oxidase, drug metabolizing enzyme, nicotinamide *N*-oxide, bovine 721  
drug metabolism, imipramide *N*-oxide, menadione, reduction, microsome, cytosol, bovine 1309

**Ciliary epithelium,**  
Na<sup>+</sup>-uptake, Na<sup>+</sup>/HCO<sub>3</sub><sup>-</sup>-symport, membrane transport, aqueous humour secretion, tissue culture, bovine 595  
non-pigmented ciliary epithelium, membrane transport, membrane potential, sodium/potassium conductance, sodium-potassium ATPase, primary culture, bovine 793

## Subject index

**Ciliary processes,**  
adrenergic receptors, vasoactive intestinal polypeptide (VIP), adenylate cyclase, cyclic AMP, intraocular pressure, ocular pharmacology, rabbit 47

carbonic anhydrase, aqueous humour, membrane transport and permeability, tissue culture, bovine 1111

inositol phosphates, histamine H<sub>1</sub> receptors, tissue culture, human 415

**Collagen,**  
Bruch's membrane, rat 1171

**Conjunctiva,**  
ultrastructure, membranous cells (M cells), guinea-pig 751

**Contact lenses,**  
cornea, epithelium, cell sloughing, tears, leukocytes, human 329  
soft contact lenses, cornea, keratitis, *Pseudomonas aeruginosa*, hydrophobicity, adherence, haemagglutination 195  
tears, protein deposition 185

**Cornea,**  
contact lenses, tears, cell sloughing, epithelium, leukocytes, human 329  
corneal endothelium, corneal preservation, fluorescein, fluorescein diacetate, scanning electron microscopy, rabbit 17  
corneal endothelium, wound repair, freeze fracture, electron microscopy, cat 365  
corneal endothelium, gap junctions, dye coupling, rabbit 859  
corneal epithelium, aminoglycosides, *in vitro*, rabbit 299  
corneal epithelium, Fc receptors, immunoperoxidase staining 123  
corneal epithelium/corneal endothelium, pilocarpine, drug toxicity, vehicles, ultrastructural change, rabbit 637  
corneal stromal cells, cell growth, c-myc mRNA, serum stimulation, synchronization, transcriptional control, tissue culture, human 405  
corneal topography, radial keratotomy, keratometry, CorneaScope, KeraScanner 661  
corneal transplantation, cyclosporin, allograft reaction, graft survival, penetrating keratoplasty, blood transfusion, rabbit 523  
corneal transplantation, graft rejection and keratoplasty, rats 813  
corneal transplantation, autograft PKP, dendrites, dexamethasone, herpes simplex virus, keratitis, rabbit 1323  
corneal vascularization, lymphatics, lymphangiogenesis, angiogenesis, autoradiography, mitosis, rats 91  
drug delivery, antibiotics, *Pseudomonas* keratitis rabbit 1163  
drug penetration, trifluorothymidine, antivirals, secondary ion mass spectrometry, rabbit 971  
epithelium, endothelium, keratocytes, tissue culture, glucose consumption 349  
fibroblast growth factors, keratoconus, extracellular matrix, human 975  
herpes simplex virus, lipoxygenase pathway, non-steroidal anti-inflammatory agents, platelet activating factor antagonist, rabbit 1287  
keratitis, *Pseudomonas aeruginosa*, soft contact lenses, hydrophobicity, adherence, haemagglutination 195  
Langerhans cells, keratitis, herpes simplex virus 851  
membrane transport and permeability, bovine 891  
stromal keratitis, herpes simplex virus, HSV-1, monoclonal antibody, glycoprotein D, mouse 499  
tears, wound healing, plasmin, plasminogen activator, rabbit 1293  
temperature profile, infra-red imaging, ocular surface, blinking 901  
wound healing, basement membrane zone, radial keratotomy, monoclonal antibodies, rabbit 305  
wound healing, excimer laser, cultured epithelium, endothelium and keratocytes, *in vitro*, bovine 713  
 $\alpha$ -1-proteinase inhibitor,  $\alpha$ -1-antitrypsin, quantification, immunolocalization, human 389

**Corneal endothelium,**  
corneal epithelium, pilocarpine, drug toxicity, vehicles, ultrastructural change, rabbit 637  
corneal preservation, fluorescein, fluorescein diacetate, scanning electron microscopy, rabbit 17  
gap junctions, cornea, dye coupling, rabbit 859  
membrane transport and permeability, corneal endothelium, bovine 891  
wound repair, freeze fracture, electron microscopy, cat 365

**Corneal epithelium,**  
aminoglycosides, toxicity, *in vitro*, rabbit 299

cornea, adrenergic pharmacology, adenylate cyclase, cyclic AMP, calcium, forskolin, bovine 85  
corneal endothelium, pilocarpine, drug toxicity, vehicles, ultrastructural change, rabbit 637  
Fc receptors, immunoperoxidase staining 123

**Corneal preservation,**  
corneal endothelium, fluorescein, fluorescein diacetate, scanning electron microscopy, rabbit 17

**Corneal stromal cells,**  
cell growth, c-myc mRNA, serum stimulation, synchronization, transcriptional control, tissue culture, human 405

**Corneal transplantation,**  
autograft PKP, dendrites, dexamethasone, herpes simplex virus, keratitis, rabbit 1323  
cornea, cyclosporin, allograft reaction, graft survival, penetrating keratoplasty, blood transfusion, rabbit 523  
graft rejection and keratoplasty, rats 813

**Corneal vascularization,**  
cornea, lymphatics, lymphangiogenesis, angiogenesis, autoradiography, mitosis, rats 91

**Crystallins,**  
lens, diabetes, monoclonal antibodies, rat 989  
lens, lens differentiation, lens proteins, protein phosphorylation, bovine 151  
lens, selenite cataract, aqueous humour, vitreous humour, rat 479  
lens, tertiary structure, circular dichroism, species comparison, tryptophan fluorescence, human, bovine, rat, rabbit 139  
 $\alpha$ -crystallin, 43 000 Da aggregate, lens, lens proteins, oxidative damage,  $Fe^{2+}$  oxidation, bovine 771  
 $\alpha$ -crystallin, denaturation/renaturation, lens proteins, temperature, molecular mass, bovine 397  
 $\alpha$ B-crystallin/ $\beta$ B2-crystallin, lens epithelium, lens differentiation, epithelial cultures, human 285  
 $\beta$ -crystallins,  $\gamma$ -crystallins, lens, lens proteins, conformation, pyrene excimer, bovine 533  
 $\beta$ B3-crystallin, phosphorylation, lens, chicken 459

**Cyclic AMP,**  
adrenergic receptors, vasoactive intestinal polypeptide (VIP), adenylate cyclase, ciliary processes, intraocular pressure, ocular pharmacology, rabbit 47

calcium, protein secretion, protein kinase, signal transduction, inositol phospholipids, tears, lacrimal system 619  
prostaglandin receptors, iris, bovine 1211  
prostaglandins, prostaglandin esters, blood-aqueous barrier, intraocular pressure, rabbit, beagle 131  
retina, vasoactive intestinal polypeptide, rat 1207

**Cyclosporin,**  
cornea, corneal transplantation, allograft reaction, graft survival, penetrating keratoplasty, blood transfusion, rabbit 523

**Cytomegalovirus,**  
retinal pigment epithelium, AIDS, human 835

**Cytoskeleton,**  
lens, beaded filaments, immunocytochemistry, bovine 801

**Diabetes,**  
alloxan diabetes, sugar cataract, calcium, aqueous humour osmolality, lens, rabbit 517  
diabetic cataract, cataract prevention, lens, aldose reductase inhibitor, sorbinil, Octodon degus 233  
diabetic retinopathy, retinal endothelial cells, cell culture, human, bovine 675  
galactosemia, retinopathy, DNA strand breaks, lymphocytes, dog 765  
glucose, lens, lens proteins, cataract, spectroscopy, human 821  
insulin, cataract, aldose reductase, iris, sorbinil, streptozotocin, rat 357  
lectin binding, blood vessels, blood-retinal barrier, retina, rat 271  
lens crystallins, monoclonal antibodies, rat 989  
retina, retinal capillaries, blood vessels, endothelial cells, islet transplantation, autoradiography, mouse 681  
streptozotocin cataract, lens, major intrinsic polypeptide, rat 589

**Diabetic retinopathy,**  
retinal endothelial cells, cell culture, human, bovine 675

**DNA,**  
aldose reductase, lens, cataract 1021  
DNA strand breaks, retinopathy, diabetes, galactosemia, lymphocytes, dog 765

**Dopamine,**  
receptors, adrenergic pharmacology, rat, rabbit 75

**Drug delivery,**  
antibiotics, cornea, *Pseudomonas* keratitis, rabbit 1163  
antivirals, cornea, rabbit 971  
commercial vehicles, pilocarpine, comparative effects, pupil diameter, primate/rabbit 1251  
growth factors, kinetics, autoradiography, rabbit 1141  
hyaluronic acid, sodium hyaluronate, viscosity, pilocarpine, meiosis, rabbit 563

**Drug metabolism,**  
imipramide N-oxide, menadione, reduction, microsome, cytosol, ciliary body, bovine 1309

**Eale's disease,**  
retina, neovascularization, 23 kd anionic protein, human 1259

**Elastin,**  
trabecular meshwork, glaucoma, human 1071  
 $\alpha$ -elastin antibody, retina, retinal artery, blood vessels, immunocytochemistry, electron microscopy, monkey 55

**Electroretinogram,**  
FC 43, isolated eye, oxygen, histology, cat 487

**Endothelial cells,**  
islet transplantation, diabetes, retina, retinal capillaries, blood vessels, autoradiography, mouse 681  
retinal degeneration, Bruch's membrane, retinal pigment epithelium, vascular endothelium, rats 907  
retinal endothelial cells, diabetic retinopathy, cell culture, human, bovine 675  
retinal growth factors, proliferative retinopathy, bovine 871

**Excimer laser,**  
cornea, wound healing, cultured epithelium, endothelium and keratocytes, *in vitro*, bovine 713

**Excitatory amino acids,**  
excitotoxins, eye growth, eye enlargement, kainic acid, *N*-methyl-D,L-aspartate, quisqualic acid, chick 781

**Experimental autoimmune uveitis (EAU),**  
retinal S-antigen, intracamerale injection, histopathology, rat, mouse 113

**Fc receptors,**  
corneal epithelium, immunoperoxidase staining 123

**Fibroblasts,**  
fibroblast migration/contraction, trabeculectomy, filtration surgery, glaucoma, taxol, cytochalasin B, colchicine, aqueous humour 203

**Fibronectin,**  
Bruch's membrane, rat 1171

**Fluorescein,**  
fluorescein diacetate, corneal endothelium, corneal preservation, scanning electron microscopy, rabbit 17

**Ganglion cell,**  
axonal transport, retinal degeneration, blindness, animal model, chicken 321

**Gap junctions,**  
corneal endothelium, cornea, dye coupling, rabbit 859

**Glaucoma,**  
aqueous humour dynamics, tonography, rabbit 963  
congenital glaucoma, fetus, ocular development, anterior chamber, trabecular meshwork, ultrastructure, human 727  
elastin, trabecular meshwork, human 1071  
filtration surgery, trabeculectomy, fibroblast migration/contraction, taxol, cytochalasin B, colchicine, aqueous humour 203  
lid suture myopia, eye enlargement, light environment, blind *rc* chicks 757  
trabecular meshwork phagocytosis, cat 1121

**Glutathione,**  
glutathione peroxidase, glutathione-S-transferase, iris-ciliary body, isoenzymes, bovine 175  
lens, cataract 883  
retinal/choroidal microvessels, retinal pigment epithelium, Muller cell, bovine 1131  
sugar cataract, lens, galactose, protein glycation, sex, pig 449

**Glycoproteins,**  
cadherin, lens, membranes, human 947  
tears, lactoferrin, iron, SDS-PAGE, human 581

**Growth factors,**  
cornea, keratoconus, extracellular matrix, fibroblast, human 975  
drug delivery, kinetics, autoradiography, rabbit 1141  
receptors, retinal pigment epithelium, tumours/proliferative retinopathy, human 1029  
retina, proliferative retinopathy, bovine 871  
tumour necrosis factor, cell proliferation, culture density, retinal pigment epithelium, human/bovine 1279

**Herpes simplex virus,**  
HSV-1, stromal keratitis, cornea, monoclonal antibody, glycoprotein D, mouse 499  
HSV-1, uveitis, keratitis, keratouveitis, immunohistochemistry, Lyt-1, Thy-1, mouse 37  
keratitis, cornea, corneal transplantation, autograft PKP, dendrites, dexamethasone, rabbit 1323  
keratitis, cornea, Langerhans cells 851  
lipoxygenase pathway, non-steroidal anti-inflammatory agents, platelet activating factor antagonist, cornea, rabbit 1287  
retinitis, retina, AIDS, HIV-1, HHV-6, CMV, PCR, human 379  
retinitis, T-cell deficiency, ACAID, mouse 1179  
ultraviolet irradiation, passive immunization, immunosuppressive drugs, mouse 1193  
virulence, encephalitis, retina, retinitis, acute retinal necrosis, mouse model 687

**Histamine,**  
histamine H<sub>1</sub> receptors, inositol phosphates, ciliary processes, tissue culture, human 415

**Human leukocyte antigens (HLA),**  
major histocompatibility complex (MHC), HLA-DR4, susceptibility gene, ocular cicatricial pemphigoid, human 189

**Hyaluronic acid,**  
sodium hyaluronate, viscosity, drug delivery, pilocarpine, meiosis, rabbit 563

**Imipramide N-oxide,**  
drug metabolism, menadione, reduction, microsome, cytosol, ciliary body, bovine 1309

**Immunoglobulins,**  
immunology, lymphocytes, neuropeptides, plasma cells, mucosa, tears, lacrimal system 599

**Inflammation,**  
prostaglandins, blood-aqueous barrier paracentesis, rabbit 1105  
retinitis, herpes simplex virus, T-cell deficiency, ACAID, mouse 1179

**Inositol phosphates,**  
histamine H<sub>1</sub> receptors, ciliary processes, tissue culture, human 415

**Insulin,**  
diabetes, cataract, aldose reductase, iris, sorbinil, streptozotocin, rat 357

**Intraocular pressure,**  
adrenergic pharmacology, peripheral alpha<sub>2</sub> adrenoceptors, receptors, intracamerale injection, pupil diameter, rabbits 547  
blood pressure, chlorpromazine, intramuscular/intracerebroventricular/intravitreal injection, prolactin, rabbit 1315  
blood-aqueous barrier, cyclic-AMP, prostaglandins, prostaglandin esters, rabbit, beagle 131  
progesterone, steroid agonist, rabbit 317  
tonometry, pneumatonometer, calibration, rabbit 9

## Subject index

**Ion channels,**  
electrolyte transport, membrane transport and permeability,  
Na, K-ATPase,  $\text{Na}^+/\text{H}^+$  and  $\text{Cl}^-/\text{HCO}_3^-$  antiporters, tears, tear film, lacrimal system 607

**IRBP,**  
retina, rods, cones, interphotoreceptor matrix, photoreceptors, immunocytochemistry, monkey 1331

**Iris,**  
anterior eye chamber, anterior iris surface, iridectomy, oxygen, polarographic  $\text{pO}_2$ -measurements, blood flow, rabbit, cynomolgus monkey 649  
cataract, diabetes, insulin, aldose reductase, sorbinil, streptozotocin, rat 357  
prostaglandin receptors/cyclic AMP, bovine 1211

**Iris-ciliary body,**  
ciliary process, retina, choroid, angiotensin II receptors, rabbit 841  
glutathione-S-transferase, glutathione peroxidase, isoenzymes, bovine 175  
receptors, norepinephrine, dopamine antagonists, ADTN, binding sites, rabbit 1225

**Irradiation,**  
focal irradiation, injury, proliferative vitreoretinopathy, peri-retinal cellular proliferation, iodine 125, rabbit 1241  
gamma-irradiation, perforating injury, wound healing, rabbit 337

**Keratitis,**  
herpes simplex virus, cornea, Langerhans cells 851  
herpes simplex virus, cornea, corneal transplantation, autograft PKP, dendrites, dexamethasone, rabbit 1323  
*Pseudomonas aeruginosa*, cornea, soft contact lenses, hydrophobicity, adherence, haemagglutination 195  
stromal keratitis, herpes simplex virus, HSV-1, cornea, monoclonal antibody, glycoprotein D, mouse 499  
uveitis, keratouveitis, herpes simplex virus, HSV-1, immunohistochemistry, Lyt-1, Thy-1, mouse 37

**Keratoconus,**  
fibroblast growth factors, cornea, extracellular matrix, human 975

**Lacrimal system,**  
tears, immunoglobulins, immunology, mucosa, lymphocytes, neuropeptides, plasma cells 599  
tears, protein secretion, protein kinase, signal transduction, inositol phospholipids, calcium, cyclic-AMP 619  
tears, tear film, ion channels, electrolyte transport, membrane transport and permeability, Na, K-ATPase,  $\text{Na}^+/\text{H}^+$  and  $\text{Cl}^-/\text{HCO}_3^-$  antiporters 607

**Lactoferrin,**  
tears, iron, glycoproteins, SDS-PAGE, human 581

**Langerhans cells,**  
cornea, keratitis, herpes simplex virus 851

**Lectin binding,**  
diabetes, blood vessels, blood-retinal barrier, retina, rat 271

**Lens,**  
aldose reductase DNA, cataract 1021  
cataract, aldose reductase, mRNA, dot hybridization, rat 1299  
cataract, cataract classification, nuclear cataract, visual perception, quantitative scales, multidimensional scaling, human 1  
cataract, diabetic cataract, cataract prevention, aldose reductase inhibitor, sorbinil, Octodon degus 233  
cataract, glutathione/oxidative damage 883  
crystallins, diabetes, monoclonal antibodies, rat 989  
crystallins, selenite cataract, aqueous humour, vitreous humour, rat 479  
crystallins, swan 1055  
crystallins, tertiary structure, circular dichroism, species comparison, tryptophan fluorescence, human, bovine, rat, rabbit 139  
cytoskeleton, beaded filaments, immunocytochemistry, bovine 801  
glycoproteins, cadherin, human 947  
lens development, lens growth, lens capsule, capsule development, extracellular matrix, basal lamina, rat 1271  
lens differentiation, lens proteins, crystallins, protein phosphorylation, bovine 151

lens epithelium, accommodation, actin filaments, polygonal arrays, stress fibres, sequestered actin bundles 569  
lens epithelium, cataract, selenium, DNA, cell cycle, S phase, rat 429  
lens epithelium, lens differentiation,  $\alpha$ B-crystallin,  $\beta$ B2-crystallin, epithelial cultures, human 285  
lens epithelium, phosphatidylinositol synthase/kinases, myo-inositol, rabbit 101  
lens fibre membrane, membrane protein, membrane lipid, fluorescence anisotropy, bovine, human 293  
lens proteins, cataract, diabetes, glucose, spectroscopy, human 821  
lens proteins,  $\alpha$ -crystallin, 43 000 Da aggregate, oxidative damage,  $\text{Fe}^{2+}$  oxidation, bovine 771  
lens proteins,  $\beta$ -crystallins,  $\gamma$ -crystallins, conformation, pyrene excimer, bovine 533  
lens weight, ageing, dogfish 707  
membrane proteins, MP17, immunolocalization, sheep 697  
membrane transport and permeability, calcium, human 1049  
Na<sup>+</sup>, K<sup>+</sup>-ATPase/aldose reductase, cataract, rat 997  
oxidative damage, cell membrane/lens lipids, human 939  
prostaglandins, PGH synthase, hypergalactosaemia, bovine 1063  
streptozotocin cataract, diabetes, major intrinsic polypeptide, rat 589  
sugar cataract, diabetes, alloxan diabetes, calcium, aqueous humour osmolarity, rabbit 517  
sugar cataract, galactose, glutathione, protein glycation, sex, pig 449  
tryptophan, ultraviolet irradiation, ageing, bovine 1153  
 $\beta$ B3-crystallin, phosphorylation, chicken 459

**Lens differentiation,**  
lens epithelium,  $\alpha$ B-crystallin,  $\beta$ B2-crystallin, epithelial cultures, human 285  
lens proteins, crystallins, protein phosphorylation, bovine 151

**Lens epithelium,**  
accommodation, actin filaments, polygonal arrays, stress fibres, sequestered actin bundles 569  
cataract, selenium, DNA, cell cycle, S phase, rat 429  
lens differentiation,  $\alpha$ B-crystallin,  $\beta$ B2-crystallin, epithelial cultures, human 285  
lens, phosphatidylinositol synthase/kinases, myo-inositol, rabbit 101  
prostaglandins, PGH synthase, hypergalactosaemia, bovine 1063

**Lens lipids,**  
oxidative damage, human 939

**Lens proteins,**  
cataract, glutathione/oxidative damage 883  
 $\alpha$ -crystallin, 43 000 Da aggregate, oxidative damage,  $\text{Fe}^{2+}$  oxidation, bovine 771  
crystallins, swan 1055  
crystallins,  $\alpha$ -crystallin, denaturation/renaturation, temperature, molecular mass, bovine 397  
lens differentiation, crystallins, protein phosphorylation, bovine 151  
lens,  $\beta$ -crystallins,  $\gamma$ -crystallins, conformation, pyrene excimer, bovine 533

**Lekotrienes,**  
arachidonic acid, lipoxygenase, retina, retinal pigment epithelium, photoreceptors, phagocytosis, *Xenopus laevis* 557

**Lipoproteins,**  
cholesterol, aqueous humour, blood aqueous barrier, uveitis, rabbit 441

**Lipoxygenase pathway,**  
herpes simplex virus, non-steroidal anti-inflammatory agents, platelet activating factor antagonist, cornea, rabbit 1287

**Lymphatics,**  
lymphangiogenesis, angiogenesis, autoradiography, corneal vascularization, mitosis, rats 91

**Meiosis,**  
pilocarpine, sodium hyaluronate, hyaluronic acid, drug delivery, viscosity, rabbit 563

**Membrane proteins,**  
MP17, immunolocalization, lens, sheep 697

**Membrane transport and permeability,**  
aqueous humour secretion, ciliary epithelium,  $\text{Na}^+$ -uptake,  $\text{Na}^+/\text{HCO}_3^-$ -symport, tissue culture, bovine 595  
calcium, lens,  $\text{Ca}^{2+}$ -ATPase,  $\text{Na}^+$ ,  $\text{K}^+$ -ATPase, human 1049

ciliary processes, aqueous humour, carbonic anhydrase, tissue culture, bovine 1111

corneal endothelium, cell culture, bovine 891

electrolyte transport, ion channels, Na, K-ATPase,  $\text{Na}^+/\text{H}^+$  and  $\text{Cl}^-/\text{HCO}_3^-$  antiporters, tears, tear film, lacrimal system 607

membrane potential, sodium/potassium conductance, sodium-potassium ATPase, non-pigmented ciliary epithelium, ciliary epithelium, primary culture, bovine 793

retina, retinal adhesion, retinal pigment epithelium, furosemide, ouabain, embryonic chicken 553

**Myo-inositol,**  
phosphotidylinositol synthase/kinases, lens epithelium, rabbit 101

**Myopia,**  
lid suture myopia, glaucoma, eye enlargement, light environment, blind *rc* chicks 757

**Neovascularization,**  
retina, Eale's disease, 23 kd anionic protein, human 1259

**Norepinephrine,**  
dopamine antagonists, receptors, ADTN, binding sites, iris-ciliary body, rabbit 1225

**Ocular development,**  
excitatory amino acids, excitotoxins, eye enlargement, kainic acid, *N*-methyl-D,L-aspartate, quisqualic acid, chick 781

trabecular meshwork, anterior chamber, ultrastructure, congenital glaucoma, fetus, human 727

**Optic nerve,**  
optic neuritis, axonal transport, experimental allergic encephalomyelitis, demyelinating disease, retina, guinea pig 253

optic neuritis, axonal transport, demyelinating disease, experimental allergic encephalomyelitis, guinea pig 261

**Optic neuritis,**  
optic nerve, axonal transport, experimental allergic encephalomyelitis, demyelinating disease, retina, guinea pig 253

oxidative damage, catalase, superoxide dismutase, guinea pig 467

**Outflow facility,**  
aqueous humour dynamics, glaucoma, rabbit 963

**Oxidative damage,**  
 $\text{Fe}^{2+}$  oxidation,  $\alpha$ -crystallin, 43 000 Da aggregate, lens, lens proteins, bovine 771

lens, cell membrane/lens lipids, human 939

optic neuritis, superoxide dismutase, catalase, guinea pig 467

stress proteins, heat shock, retinal pigment epithelium, azetidine-2-carboxylic acid, two-dimensional gel electrophoresis, tissue culture, human 537

**Oxygen,**  
polarographic  $\text{pO}_2$ -measurements, blood flow, iris, anterior eye chamber, anterior iris surface, iridectomy, rabbit, cynomolgus monkey 649

**Paracentesis,**  
blood-aqueous barrier, inflammation, prostaglandins, rabbit 1105

**Pemphigoid,**  
ocular cicatricial pemphigoid, human leukocyte antigens (HLA), major histocompatibility complex (MHC), HLA-DR4, susceptibility gene, human 189

radioimmunoassay, autoantibody, human 1011

**Phagocytosis,**  
trabecular meshwork, glaucoma, cat 1121

**Phosphotidylinositol,**  
synthase/kinases, myo-inositol, lens epithelium, rabbit 101

**Photoreceptors,**  
retina, retinal pigment epithelium/retinal degeneration, *rds* gene, mouse 1093

retinal pigment epithelium/retina, Japanese quail, sex-related changes 1039

retinal pigment epithelium, retina, lipoxygenase, arachidonic acid, leukotrienes, phagocytosis, *Xenopus laevis* 557

**Pilocarpine,**  
comparative effects, pupil diameter, drug delivery, commercial vehicles, primate/rabbit 1251

drug toxicity, vehicles, corneal epithelium/corneal endothelium, ultrastructural change, rabbit 637

meiosis, sodium hyaluronate, hyaluronic acid, drug delivery, viscosity, rabbit 563

**Plasmin,**  
plasminogen activator, tears, cornea, wound healing, rabbit 1293

**Plasminogen activator,**  
plasmin, retina, retinal detachment, subretinal fluid, proliferative vitreoretinopathy, human 249

**Progesterone,**  
steroid agonist, intraocular pressure, rabbit 317

**Proliferative retinopathy,**  
endothelial cells, angiogenesis, retinal growth factors 871

endothelial cells, retinal pigment epithelium, rats 923

growth factor receptors, retinal pigment epithelium, human 1029

peri-retinal cellular proliferation, focal irradiation, injury, iodine 125, rabbit 1241

retina, retinal detachment, subretinal fluid, plasminogen activator, plasmin, human 249

**Prostaglandins,**  
inflammation, blood-aqueous barrier paracentesis, rabbit 1105

lens epithelium, bovine 1063

prostaglandin esters, cyclic-AMP, intraocular pressure, blood-aqueous barrier, rabbit, beagle 131

receptors, iris, bovine 1211

**Proteinase inhibitor,**  
 $\alpha$ -1-proteinase inhibitor,  $\alpha$ -1-antitrypsin, quantification, immunolocalization, human cornea 389

**Pseudoexfoliation syndrome,**  
amyloid P protein, zonules, elastic microfibrils, immunoelectron microscopy 217

**Pseudomonas aeruginosa,**  
keratitis, cornea, soft contact lenses, hydrophobicity, adherence, haemagglutination 195

**Pupil diameter,**  
intraocular pressure, adrenergic pharmacology, peripheral alpha<sub>2</sub> adrenoceptors, receptors, intracameral injection, rabbits 547

pilocarpine, comparative effects, drug delivery, commercial vehicles, primate/rabbit 1251

**Radial keratotomy,**  
keratometry, cornea, corneal topography, CorneaScope, KeraScanner 661

**RCS rats,**  
sodium-potassium ATP-ase, opsin, retina, retinal dystrophy, immunocytochemistry 741

**Receptors,**  
angiotensin II receptors, iris and ciliary body, ciliary process, retina, choroid, rabbit 841

dopamine, adrenergic pharmacology, rat, rabbit 75

growth factors, retinal pigment epithelium, tumours/proliferative retinopathy, human 1029

norepinephrine, dopamine antagonists, ADTN, binding sites, iris-ciliary body, rabbit 1225

peripheral alpha<sub>2</sub> adrenoceptors, adrenergic pharmacology, intracameral injection, intraocular pressure, pupil diameter, rabbits 547

prostaglandins, iris, bovine 1211

**Retina,**  
amacrine cell, Golgi method, chick 159

blood-retinal barrier, blood vessels, lectin binding, diabetes, rat 271

choroid, iris and ciliary body, ciliary process, angiotensin II receptors, rabbit 841

cyclic AMP/vasoactive intestinal polypeptide, rat 1207

growth factors, bovine 871

mammalian retina, taurine, immunocytochemistry, rat, cat, guinea pig 163

neovascularization, Eale's disease, 23 kd anionic protein, human 1259

optic neuritis, optic nerve, axonal transport, experimental allergic encephalomyelitis, demyelinating disease, guinea pig 253

photoreceptors, retinal pigment epithelium/retinal degeneration, *rds* gene, mouse 1093

## Subject index

---

photoreceptors, retinal pigment epithelium, ultrastructure, sex-related changes, lipofuscin, Japanese quail 1039  
proliferative vitreoretinopathy, peri-retinal cellular proliferation, injury, focal irradiation, iodine 125, rabbit 1241  
retinal adhesion, retinal pigment epithelium, membrane transport and permeability, furosemide, ouabain, embryonic chicken 553  
retinal artery, blood vessels, elastin,  $\alpha$ -elastin antibody, immunocytochemistry, electron microscopy, monkey 55  
retinal capillaries, blood vessels, endothelial cells, diabetes, islet transplantation, autoradiography, mouse 681  
retinal degeneration, ganglion cell, axonal transport, blindness, animal model, chicken 321  
retinal degeneration, Bruch's membrane/retinal pigment epithelium, vascular endothelium, rats 907  
retinal degeneration/proliferative retinopathy, rats 923  
retinal detachment, subretinal fluid, plasmin, plasminogen activator, proliferative vitreoretinopathy, human 249  
retinal dystrophy, opsin, immunocytochemistry, sodium-potassium ATP-ase, RCS rats 741  
retinal neovascularization, pericyte, endothelial cell, autoradiography, RCS rats 61  
retinal pigment epithelium, subretinal neovascularization, laser photoagulation, choriocapillaris, Bruch's membrane, rat 239  
retinal pigment epithelium, lipoxygenase, arachidonic acid, leukotrienes, photoreceptors, phagocytosis, *Xenopus laevis* 557  
retinal pigment epithelium, organ culture, tissue interaction, mouse 1083  
retinal/choroidal microvessels, retinal pigment epithelium, Muller cell, glutathione, bovine 1131  
retinitis, acute retinal necrosis, herpes simplex virus, virulence, encephalitis, mouse model 687  
retinitis, herpes simplex virus, AIDS, HIV-1, HHV-6, CMV, PCR, human 379  
rods, cones, IRBP, interphotoreceptor matrix, photoreceptors, immunocytochemistry, monkey 1331  
visual pigment, rhodopsin, retinoid, G-protein, transducin, rat 423

**Retinal degeneration,**  
blindness, ganglion cell, axonal transport, animal model, chicken 321  
Bruchs' membrane/retinal pigment epithelium, vascular endothelium, rats 907  
photoreceptors, retinal pigment epithelium, *rds* gene, mouse 1093  
retinal pigment epithelium, proliferative retinopathy, rats 923

**Retinal detachment,**  
retina, subretinal fluid, proliferative vitreoretinopathy, plasminogen activator, plasmin, human 249

**Retinal dystrophy,**  
opsin, immunocytochemistry, sodium-potassium ATP-ase, RCS rats 741

**Retinal neovascularization,**  
pericyte, endothelial cell, autoradiography, RCS rats 61

**Retinal pigment epithelium,**  
cell surface antigens, HLA-ABC, HLA-DR, dedifferentiation, cell culture, human 435  
cytomegalovirus, AIDS, human 835  
growth factor receptors, tumours/proliferative retinopathy, human 1029  
growth factors, tumour necrosis factor, cell proliferation, culture density, human/bovine 1279  
*in vitro* organ culture, tissue interaction, mouse 1083  
photoreceptor, ultrastructure, sex-related changes, lipofuscin, Japanese quail 1039  
photoreceptors, retinal degeneration, *rds* gene, mouse 1093  
retina, lipoxygenase, leukotrienes, arachidonic acid, photoreceptors, phagocytosis, *Xenopus laevis* 557  
retina, retinal adhesion, membrane transport and permeability, furosemide, ouabain, embryonic chicken 553  
retinal degeneration, Bruch's membrane, rats 907  
retinal degeneration/proliferative retinopathy, rats 923  
stress proteins, heat shock, oxidative damage, azetidine-2-carboxylic acid, two-dimensional gel electrophoresis, tissue culture, human 537  
subretinal neovascularization, laser photoagulation, choriocapillaris, Bruch's membrane, rat 239

**Retinal S-antigen,**  
experimental autoimmune uveitis (EAU), intracameral injection, histopathology, rat, mouse 113

**Retinitis,**  
herpes simplex virus, T-cell deficiency, ACAID, mouse 1179  
retina, acute retinal necrosis, herpes simplex virus, virulence, encephalitis, mouse model 687  
retina, herpes simplex virus, AIDS, HIV-1, HHV-6, CMV, PCR, human 379

**Retinopathy,**  
diabetes, galactosemia, DNA strand breaks, lymphocytes, dog 765

**Rhodopsin,**  
vitamin A deficiency, visual pigment, retinoid, retina, G-protein, transducin, rat 423

**Selenium,**  
cataract, lens epithelium, DNA, cell cycle, S phase, rat 429  
cataract, lens, crystallins, aqueous humour, vitreous humour, rat 479

**Sodium-potassium ATPase,**  
lens, cataract, rat 997  
lens, membrane transport and permeability, human 1049  
 $Na^+/H^+$  and  $Cl^-/HCO_3^-$  antiporters, ion channels, electrolyte transport, membrane transport and permeability, tears, tear film, lacrimal system 607  
sodium/potassium conductance, non-pigmented ciliary epithelium, ciliary epithelium, membrane transport, membrane potential, primary culture, bovine 793

**Sorbinil,**  
diabetes, insulin, cataract, aldose reductase, iris, streptozotocin, rat 357

**Stress proteins,**  
heat shock, oxidative damage, retinal pigment epithelium, azetidine-2-carboxylic acid, two-dimensional gel electrophoresis, tissue culture, human 537

**Superoxide dismutase,**  
catalase, oxidative damage, optic neuritis, guinea pig 467

**Taurine,**  
mammalian retina, immunocytochemistry, rat, cat, guinea pig 163

**Tears,**  
contact lens, protein deposition 185  
contact lenses, cornea, epithelium, cell sloughing, leukocytes, human 329  
lacrimal system, immunoglobulins, immunology, mucosa, lymphocytes, neuropeptides, plasma cells 599  
lacrimal system, protein secretion, protein kinase, signal transduction, inositol phospholipids, calcium, cyclic-AMP 619  
lactoferrin, glycoproteins, iron, SDS-PAGE, human 581  
plasmin, plasminogen activator, cornea, wound healing, rabbit 1293  
surface tension, dry eyes, ocular mucus, proteins, non-invasive break-up time, human 507  
tear film, lacrimal system, ion channels, electrolyte transport, membrane transport and permeability, Na, K-ATPase,  $Na^+/H^+$  and  $Cl^-/HCO_3^-$  antiporters 607

**Tonography,**  
aqueous humour dynamics, glaucoma, rabbit 963

**Tonometry,**  
pneumatonometer, calibration, intraocular pressure, rabbit 9

**Trabecular meshwork,**  
elastin, glaucoma, human 1071  
phagocytosis, glaucoma, cat 1121

**Trabeculectomy,**  
fibroblast migration/contraction, filtration surgery, taxol, cytochalasin B, colchicine, aqueous humour, glaucoma 203

**Trabeculotomy,**  
aqueous humour dynamics, aqueous outflow resistance, aqueous veins, perfusion pressure, Schlemm's canal, human 1233

**Trifluorothymidine,**  
drug penetration, antivirals, cornea, secondary ion mass spectrometry, rabbit 971

**Tryptophan,**  
lens, ultraviolet irradiation, ageing, bovine 1153

**Tumours,**

growth factor receptors, retinal pigment epithelium, human 1029

**Ultraviolet irradiation,**

herpes simplex virus, passive immunization, immunosuppressive drugs, mouse 1193

tryptophan, lens, ageing, bovine 1153

**Uveitis,**

aqueous humour, blood aqueous barrier, cholesterol, lipoproteins, rabbit 441

Behçet's disease, antigens, guinea-pig 957

keratitis, keratouveitis, herpes simplex virus, HSV-1, immunohistochemistry, Lyt-1, Thy-1, mouse 37

**Vasoactive intestinal polypeptide,**

adrenergic receptors, ciliary processes, adenylate cyclase, cyclic AMP, intraocular pressure, ocular pharmacology, rabbit 47

retina, c-AMP, rat 1207

**Vitamin A deficiency,**

rhodopsin, visual pigment, retinoid, retina, G-protein, transducin, rat 423

**Vitreous humour,**

aqueous humour, lens, crystallins, selenite cataract, rat 479

**Wound healing,**

basement membrane zone, cornea, radial keratotomy, wound healing, rabbit 305

cornea, excimer laser, cultured epithelium, endothelium and keratocytes, *in vitro*, bovine 713

gamma-irradiation, perforating injury, rabbit 337

plasmin, plasminogen activator, tears, rabbit cornea 1293

**Zonules,**

elastic microfibrils, pseudoexfoliation syndrome, amyloid P protein, immunoelectron microscopy 217
